COAGTRAK
PROTECT YOUR PATIENTS. PROTECT YOUR PRACTICE.

Now there's a **better way** to manage your entire Coumadin® patient population

COAGTRAK
PROTECT YOUR PATIENTS. PROTECT YOUR PRACTICE.

COAG**TRAK**
PROTECT YOUR PATIENTS. PROTECT YOUR PRACTICE.

COAGTRAK Anticoagulation Management Software may help improve outcomes, reduce liability and increase operational efficiencies. COAGTRAK is a comprehensive and easy to use anticoagulation management software.

Dosing your patients has never been easier. COAGTRAK eliminates the need to type repetitive information with our quick note features. Re-use common or previous patient instructions, and set the next test date with just one click.

Manage your practice with our comprehensive suite of reports. From tracking missed appointments to maintaining your billing, COAGTRAK has the information you need right at your fingertips.

COAG**TRAK**
PROTECT YOUR PATIENTS. PROTECT YOUR PRACTICE.

COAGTRAK tracks treatment and testing for your complete Coumadin® patient population including Point-of-Care, Lab Drawn, Home Drawn and Patient Self-Testing (PST) patients.

- Easy – both to learn and to teach new staff
- Efficient – puts the information you need at your fingertips
- Customizable – so workflow flows YOUR way
- Fast – charting of patient data can be completed in less than 30-seconds
- Clear – all patient clinical data is displayed on one screen
- Effective – satisfies Joint Commission 3E Requirement
- Accessible – web-based, no need for hardware, installation, or backups
- Seamless – integrates seamlessly with all major EMR/EHRs and PMs

Help improve patient compliance and reduce patient error with easy to understand, patient-friendly dosing calendar. You can be confident your patients will never have any doubts about how many pills to take.
