**TIP:** Your device needs to be connected to the internet to log in. Make sure you have a working cellular or Wi-Fi connection.

## Submit a test result

(1) Complete an INR test with your Roche CoaguChek<sup>®</sup> XS device in the usual way.

② Log into the app as described in this guide.

From the app's main screen, tap **Enter Test Results.** 

Point the phone's camera at the display of CoaguChek<sup>®</sup> XS device until the app shows a green square around the display of the device.

#### TIPS:

You may have to move the phone or CoaguChek XS device to get it into the right position.

As soon as the app detects a valid result, it will progress to the next step automatically.

If you can't get the app to read the results, you can enter them manually by tapping **Enter Manually** at the bottom of the screen.

The app will show the results on screen once it has detected them. Double-check to make sure they are correct. If everything is OK, press Submit.

#### TIPS:

If any of the values are wrong, you can edit them before sending them by tapping them.

You will need to be connected to the internet to submit a result. Make sure your phone is connected by cellular or Wi-Fi.

#### Set a reminder

The app allows you to set a reminder to notify you when your next test result is due. You can set the reminder to activate on a day and at a time the suits your schedule. When you tap the notification, it will take you straight to the app where you can log in and submit a test result.

#### To set a reminder:

🛈 From the app's main screen, tap **Reminders** in the top right.

Tap Select Time to select a time of day for the reminder.

③ Tap Select Day to choose a day of the week for the reminder.

4 Tap Reminders to switch on reminders.

(5) Tap Close in the top left to leave this screen.

6 A reminder has now been set.

#### TIP:

If you want to disable reminders, you can go back into Reminders and tap the setting to switch it off again at any time.

## **Respond to a reminder**

① Tap the reminder

② The mdINR app launches. Enter your PIN.

(3) Follow the previous instructions to capture the result.

## Assign a contact to be alerted when you submit your result

The app allows you to automatically send a notification message to a friend or family member each time you submit a result. This gives them peace of mind that the result has been sent.

#### NOTES:

To assign a contact, make sure you have them in your device Contacts list.

An active cellular connection is required to send a message. The feature will not work on non-cellular devices such as iPad and iPod Touch.

## Assign a contact to be alerted when you submit your result (continued)

(1) From the app's main screen, tap **Reminders** in the top right.

Onder Notify someone, select + Add Contact.

③ Select a contact from your phone's Contacts book.

To view the results as a graph, turn your device so it's in a landscape orientation.

To return to the list view, turn your phone back to a portrait orientation.

(5) You can return to the app's main screen by tapping Self Test at the bottom.

## Help & troubleshooting

If you need help with the app or device, you can read answers to frequently asked questions and contact mdINR via the app.

① Tap **More** in the bottom right of the app homescreen.

② To read answers to frequently asked questions, tap FAQs.

(3) To contact mdINR tap **Call mdINR** or Email mdINR.

#### NOTES:

A cellular connection is required to make a phone call. Your operator may charge you for the call.

A data connection (cellular or Wi-Fi) is required to email mdINR.
